

Lampton LWA SCITT: Training, Support and Intervention officer

Role

This post holder will support the development of outstanding ITT provision by Lampton LWA SCITT through leadership of the support and intervention process for trainees where progress is a concern. They will also contribute towards the Professional Studies programme for all trainees and the selection process for future trainees.

Responsibilities

- Act as a point of contact between the SCITT central team, trainees and schools to aid early identification of potential problems
- Support the interim review process so that there is early identification and interventions where concerns arise
- Lead the implementation of support and intervention strategies for SCITT trainees on all routes where the SCITT has identified that trainees are at risk of making insufficient progress through (as appropriate):
 - Progress Support Plans
 - Cause for Concern process
- Coordinate the contributions of the SCITT, the Placement school and (if appropriate) the RiS Central team towards the support and intervention process
- To be fully informed of any issues relating to trainee progress resulting from training provided by the SCITT and its partners or employees (e.g. RU, RiS, mentors, assessors, Professional tutors) so that interventions and support are effective and comply with the requirements of the SCITT
- Contribute towards the development and delivery of the Professional Studies programme for the cohort as agreed with the SCITT central team
- Support the completion of the 'RiS Challenge Project' by RiS trainees in accordance with the RiS programme
- Support the selection and assessment of future participants through the assessment and interview process
